

## **Club Points**

The calculation of club points this year has been made difficult by the fact that a software problem has made it impossible to get the computer to calculate the points using the correct scale.

In order to save a lot of time I have used the wrong scale to see who the top contenders were, and then calculated the club points myself, but only for those players I had identified as possible winners.

There were many sessions to check through and when you introduce a human factor there is always the chance of a mistake, but I do feel confident that the trophies below have been awarded to the correct players.

Patrick

## **Monday Morning**
